Three sent down for raping girl

Three **men** who systematically raped a vulnerable **schoolgirl** as she lay **unconscious** in a squalid Tyneside flat have been jailed for a total of 23 years.

Amber Liaquat, Yasin Ramzan and Robbani Miah sexually assaulted the 15-year-old girl in a 12-hour ordeal described by a judge as **"brutal, merciless and utterly without compassion."**

Newcastle Crown Court heard how the victim's nightmare began when she and two female friends were invited to a flat in the city's West End. There she was given a **spiked drink** and quickly became stupified. After falling asleep, she was carried by Miah and another youth to a neighbouring flat.

Prosecutor John Aitken said the girl, who was a **virgin**, awoke in the second flat the following morning with no recollection of what had happened to her. He said it was clear from eyewitness and forensic evidence - including DNA - that during the course of the night she had been **raped** by Liaquat, Ramzan and Miah. One witness told detectives how the victim had been so **deeply unconscious** there was concern among those in the flat she was **dead**. She was eventually able to flee the run-down flat in the Elswick area of the city and go home. Her distressed parents had earlier reported her missing but extensive efforts by police to find her had failed.

The girl - who cannot be identified for legal reasons - has been left deeply traumatised, suffers flashbacks and is currently receiving counselling.

Miah, 18, of Ellesmere Road, Ramzan, 19, formerly of Campbell Place and Liaquat, 21, of Strathmore Crescent, all Newcastle, each admitted rape. Miah, who also admitted a charge of abduction, was sentenced to nine years in a young offenders' institution. His two co-accused were locked up for seven years.

Judge Whitburn said the only conceivable mitigation they had was their guilty plea, although it been made in the face of "overwhelming" evidence against them. He told all three: "All of you were utterly without compassion for this sad, naive girl."

Ruman Abu jailed for only 18 months.

A teenager who carried an unconscious schoolgirl to a derelict flat where she was gang raped has been jailed for 18 months.

Abu, 17, said he was trying to help the 15-year-old when he carried her from one flat to another where she was raped by three men. But last month a jury found him guilty of abduction. Det Insp Max Black of Newcastle West End CID said: "The men who took part in this can only be described as **animals**.

"Although he was only convicted of abducting the youngster and carrying her from one flat to another, in the eyes of the victim and the police he played just as much a part in her ordeal."Judge Guy Whitburn told Abu, **"This is as serious a case of abduction as I have ever seen."**

"This is another example of failed forced Multiculturalisim and the UK's failed Asylum policy. If you the British People had listened to the National Front from 1967 onwards and took more notice of Enoch Powell in 68. This sad event and many needless others would never have occured as the culprits would not have been here.

National Health Service in CRISIS

THE NATIONAL FRONT WILL:-
Provide an entirely **free** National Health Service, **abolish** prescription charges and prevent abuse of our health care system by people from abroad.
Fund the NHS to a degree that eliminates waiting lists for operations and other major treatment.
Stop closing hospitals, and build **new** localized ones.
2. LOOKING AFTER OUR PEOPLE
When people fall ill, what they need is good, quick and friendly health care. They don't want to worry about waiting lists, bed shortages or whether or not they can afford the treatment. The National Front believe that the National Health Service should be absolutely **free** to every British citizen.
We are not opposed to private medicine and health schemes but we believe that they should be kept entirely separate from the National Health Service which should not have to suffer for the benefit of private schemes.
Our National Health Service has suffered from a surfeit of meddling and reorganisation, and we would seek to restore a degree of continuity (and some would say sanity) to an already overworked system. However we do not approve of the commercialisation of hospitals. We believe that funding of the NHS must be rapidly expanded to improve performances, reduce waiting lists, provide good remuneration to staff both doctors and nurses and ancillary workers and to raise the morale of the service. We would however like to see a reduction in the number of 'administrators' and their self- appointed importance. All final decision-making within a hospital should rest in the hands of the doctors.
We would like to see more emphasis placed on preventative medicine and we would encourage the institution of regular and comprehensive check-ups. Many companies find these to be of financial advantage for their staff and we feel that the same is true of the nation - and, of course, it would be of great benefit to our people. Without these changes we believe that the loss of the best doctors to overseas and to the private sector will lead to a demoralised and third rate National Health Service and we find this to be intolerable.
3. PRESCRIPTION CHARGES
These would be **abolished**. We feel it is fundamentally wrong to ask people to pay for medicine at exactly the time that they are under pressure through being ill, possibly losing wages, and frequently finding it difficult to cope. These charges also deter people from seeking the help they need. We would however institute a system of checks on doctors to ensure that they are only prescribing treatments that are needed by the patient and not squandering NHS money.
4 . The National Front is opposed to abortion on principle and would only sanction them where: a mother has conceived as a result of rape, where medical opinion asserts that there is a genuine and serious danger to the health or life of the mother if the pregnancy is allowed to continue, or where medical opinion asserts that the foetus is seriously damaged or malformed. All such abortions are dependent on the Mother's consent. The NF does not believe that abortion should be available as a kind of post-coital contraception.
5. FUNDING OF THE HEALTH SERVICE
While we expect all parts of the NHS to use money efficiently and carefully a National Front government will make available sufficient funds to eliminate all waiting lists for medically needed operations and treatments. This will take priority over other items of expenditure.

The future of the NHS can only be saved by a National Front government

THE CONSPIRACY TO KEEP PEOPLE AWAY FROM THE NF

To the people who described themselves as "Blair's boys", the people who question the legitimacy of the NF as a political party:

Sir's, you state that, (and I quote), "It seems to us that the NF membership definitely displays an acute lack of discipline, commitment and active involvement by it's membership." May I suggest, that, before voicing your vain and misinformed criticisms of the NF, you actually read the NF policy statement (see the NF website policies pages www.natfront.com). Like any other political party, of course the NF has a party "manifesto" which clearly outlines it's policies and the political stance of the party on all the major issues, such as Democracy, Electoral reform,

of what the NF stands for, in the minds of people; and that this false "racist thug" image is now firmly implanted in their minds by our politicians use of press and media propaganda.

If you were honest with yourselves now, you would agree that YOU only think that the NF is like this , or like that, because you have been told this by someone else; and you have not found out the facts for yourself. Therefore, I do suggest that before you criticise the NF in future, you actually do some research into the party and discover for yourself, exactly what this organisation is all about, and not simply rely on the government-nurtured, stereo-typical thug image, that the "big three" political parties have imprinted upon the minds of the British people.

Finally, I haven't replied to you simply to criticise you; rather, to encourage you to go to the NF

upon the native British people; it is THEM who are destabilising the country, allowing the country to be overrun with immigrants, Asylum seekers and economic migrants; it is THEIR policies that are allowing our nations wealth to be transferred abroad; it is THEIR policies that are causing racial tension and civil disobedience on our streets; it is THEIR policies, and NOT the NF's actions who are responsible. The government are indeed responsible; but they are very clever at the political cover up agenda, and can easily conceal their actions by simply blaming someone else (namely the NF) for any civil disobedience. If only more British people would discover this blinding truth.

I agree that many people who go on blindly voting for the "big three" political parties have a false impression of the NF. It is similar to white British people not being able

believe (using the press and media), that the NF is nothing more than a few hot-headed geezers blowing off steam over a few pints in the local pub. However, I say with hand on heart, that this could not be further from the truth. The NF is a legitimate political party and I truly believe that the NF is the only viable alternative to the outdated, inept, and anti-white political parties, who have held centre stage since the end of the second world war. NF members do a lot of sterling work towards the cause of uncovering government lies, corruption, manipulation and anti-white propaganda.

So, I ask you to consider this most carefully; if you are proud of Great Britain; proud to be British; if you love our people; our heritage, our culture and our British national identity; then how can you possibly vote for ANY political party that is steadily erasing our national identity and intent on selling us all out in the

Like any other political party, of course the NF has a party "manifesto" which clearly outlines it's policies and the political stance of the party on all the major issues, such as Democracy, Electoral reform, Education, Employment, Europe etc.

You also state, (with rather crass generalisations), that all of the people in the UK saw the NF as nothing more than, (and I quote you again), "a bunch of thicko working class thugs looking to stir up racial tension and civil unrest." My friend's, this is simply not the case!

If you consider this issue more carefully, you will discover that Joe public has indeed been duped by a well planned government conspiracy, to keep as many people as possible from supporting the NF, by cleverly creating a false image implanted in their minds by our politicians use of press and media propaganda.

If you were honest with yourselves now, you would agree that YOU only think that the NF is like this , or like that, because you have been told this by someone else; and you have not found out the facts for yourself. Finally, I haven't replied to you simply to criticise you; rather, to encourage you to go to the NF website and take time, read up on our policies and to find out what the NF is really all about. You will find that it is not our policy to deliberately cause trouble and stir up civil unrest etc. You will agree, that, as a political party, the NF membership has just as much right to question and to challenge UK government policy, in exactly the same way that existing opposing parties challenge those who are currently in power in the government of the day.

You will also discover that it is the "big three" political parties who are guilty of deliberately imposing their inane, inept, anti-white policies overrun with immigrants, Asylum seekers and economic migrants; it is THEIR policies that are allowing our nations wealth to be transferred abroad; it is THEIR policies that are causing racial tension and civil disobedience on our streets; it is THEIR policies, and NOT the NF's actions who are responsible. I agree that many people who go on blindly voting for the "big three" political parties have a false impression of the NF. It is similar to white British people not being able to fly the Union Jack without being accused of racism. Now, how evil is that; that a British person cannot be proud of his own flag because various ethnic groups (and indeed the indigenous white population) have been brain-washed into thinking that the British Flag is somehow a racist symbol! When our lads went to war, they fought for Queen and country under the British Flag, NOT under a racist symbol. If we are taught to be ashamed of our national flag, then how can we possibly be proud of our country?

In the same way too, the politicians have led the British people to steam over a few pints in the local pub. However, I say with hand on heart, that this could not be further from the truth. The NF is a legitimate political party and I truly believe that the NF is the only viable alternative to the outdated, inept, and anti-white political parties, who have held centre stage since the end of the second world war. Sir's, when you next stand in a ballot box and are considering where to put your cross on your ballot paper: think about what I have said, and then make the right choice. A vote for the NF is a vote for YOUR future as a British citizen; and for your national identity to be preserved; a vote for the NF is a vote for your kids and for future generations of white British people. To vote for any party that stifles and oppresses its own native people, is.... Genocide.
Thank you.

HOW CAN YOU SAY THAT NATIONALISM IS PATHETIC?

If you truly believe that Nationalism is pathetic, then why do we have a British Army, the Royal Navy, the Royal Air Force, that fight for, and protect this country (at times when our national security is threatened)? Do these men and women not fight under the British flag; the symbol of our national pride; (oh, I forgot, its racist to fly the Union Jack now, isn't it?). Why do we have a British King or Queen and the monarchy; the trooping of the colour etc. Why did Maggie bother to send out the troops to protect the Falklands? why did our fathers and our grandfathers sacrifice their lives, fighting in two world wars, to protect this great land? My God, all those British men who have been killed fighting for Great Britain must be turning in their graves seeing you lot give this fair green land away to a rabid pack of stray dogs; yes, our homeland Mr Blair, which was paid for by the blood of brave British men and women, and now you lot are in the process of selling us out and giving it all away to foreigners!

You, and others like you make me so damn angry; you have brain-washed the majority of our Great British nation to believe that PATRIOTISM equates to RACISM; and that NATIONAL PRIDE is now NATIONAL GUILT and SHAME! Strange, isn't though, that you "puppet-politicians" expect our lads in the Armed Forces to be patriotic and proud when your seats of power and your cushy, comfortable, loathsome lifestyles are threatened by warmongering devils; yes, THEN you expect patriotism and national pride from your loyal white British citizens. Absolute Hypocrites, the lot of you!

All of you have betrayed our brave dead; you have betrayed the British People; you have scorned their bravery, their courage and mocked the very crux of what our brave British lads stood for; FREEDOM for the British people and the British way of life. You lot ought to be completely ashamed of yourselves. So, you still think that Nationalism is pathetic? Sir, you are talking out of your anus!

Finally, why is it that we do not see countries like Iran, Iraq, Saudi Arabia, Afghanistan, India, Pakistan, Africa etc. inviting millions of white people to come and settle in those countries; to take the jobs and wealth of their own people away from them; and allow them to be able to do and say whatever they please; to change their laws to accommodate their white immigrants; to live off the taxes of the native people of that country; to practice their own religions and their own customs and traditions... Imagine going to Kabul and opening a Christian church right in the town centre. We all know exactly what would happen within minutes, and yet you have allowed these immigrants to do just this, in our country.

You paint a picture in the minds of our people that the NF are a racist bunch of thugs. But the white British people know the truth. The truth is, that, it is Asians who are anti-white racists; it is blacks who are anti-white racists; it is Arabs who want to see the white race subverted, converted and exterminated. That is the real truth, Mr Blair! It is THEM who are the real racists... YOU know that, I know that, and every person in this country will eventually wake up and realise that fact; so please, stop trying to bull-shit the white people of Great Britain and just come clean; admit that past and present government plans for a multi-racial Britain, was, and is, a complete disaster. Yes, you were all wrong, but you haven't got the bottle to stand up and admit it to our nation!

Still, Tone, you and your sleazy true reds; and Duncan-Smith and his Boyz, won't listen to a word that I have said, will you? But the hour is approaching when you will listen; and you will see a nation being governed by a party who governs in the interests of OUR people; you will see a nation who are proud to be truly British, proud of Queen and country; proud of their national identify and their British way of life, a party who will ensure a safe and secure future for native British children. The alternative you puppet-politicians have to offer our country is civil war and white genocide! And if you are angry that I, a low-life working class scum-bag, actually dares to stand up and be counted, and who challenges your acrid comments to the NF, then no doubt my next article, will be from a dark, musty dungeon in the Tower of London. But I'll take heart because I will still be able to see the red, white & blue flag of my great country flying over Buckingham Palace!

world wars, to protect this great land? My God, all those British men who have been killed fighting for Great Britain must be turning in their graves seeing you lot give this fair green land away to a rabid pack of stray dogs; yes, our homeland Mr Blair, which was paid for by the blood of brave British men and women, and now you lot are in the process of selling us out and giving it all away to foreigners!

You, and others like you make me so damn angry; you have brain-the very crux of what our brave British lads stood for; FREEDOM for the British people and the British way of life. You lot ought to be completely ashamed of yourselves. So, you still think that Nationalism is pathetic? Sir, you are talking out of your anus!

Finally, why is it that we do not see countries like Iran, Iraq, Saudi Arabia, Afghanistan, India, Pakistan, Africa etc. inviting millions of white people to come and settle in those countries; to take the jobs truth is, that, it is Asians who are anti-white racists; it is blacks who are anti-white racists; it is Arabs who want to see the white race subverted, converted and exterminated. That is the real truth, Mr Blair! It is THEM who are the real racists... YOU know that, I know that, and every person in this country will eventually wake up and realise that fact; so please, stop trying to bull-shit the white people of Great Britain and just come clean; admit that past and present puppet-politicians have to offer our country is civil war and white genocide! And if you are angry that I, a low-life working class scum-bag, actually dares to stand up and be counted, and who challenges your acrid comments to the NF, then no doubt my next article, will be from a dark, musty dungeon in the Tower of London. But I'll take heart because I will still be able to see the red, white & blue flag of my great country flying over Buckingham Palace!

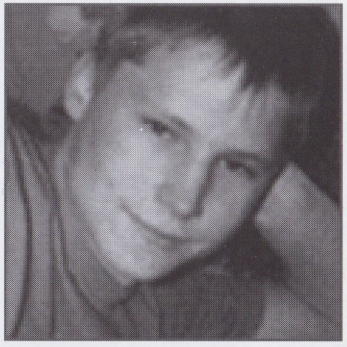
Parents question bail of Asians arrested over the murder of Ross Parker !

ALL four defendants charged with the murder of teenager Ross Parker have now been released from prison on bail, leaving his grieving family questioning the decision.



The four men, Sarfraz Ali (24), of Harris Street, and Ahmed Ali Awan (21), of Gladstone Street, Peterborough, were granted bail by High Court judges in March. But it has now emerged that Shaied Nazier (20) and Ziaraff Mahrad (20), both of Cromwell Road, Peterborough, have also been released on bail, to await trail at Northampton Crown Court in November.

It's a move which has driven Ross's parents, Tony and Davina and his sister Leanne, to send a letter of complaint to Home Secretary David Blunkett.

His 22-year-old sister has questioned the decision to release those accused of murdering her younger brother. She said: "We can't begin to comprehend why they've been allowed out of prison at this stage. "We couldn't believe it when we were told and felt compelled to write to the Home Office."

The first two suspects released on bail were ordered to live at least 50 miles from Peterborough and had to provide a "substantial" bail surety. However, the details surrounding the bail conditions of the other two suspects is unknown after the case was heard behind **closed doors** at London's High Court.

Ross (17), of Bozeat Way, Westwood, Peterborough, suffered a fatal stab

East Midlands Activity

Saturday 18th May saw members of the party from Leicestershire and Peterborough link up to hold a very successful **'Day of Action'** in the city centre of Leicester.

Activists distributed over 2000 leaflets and sold dozens of copies of **'National Front News'** on the day. The response from local people was simply **excellent**, we expected to be met by the usual types of opposition, but on this day no negative elements manifested, which was nice. This led to a relaxed afternoons canvassing, many people queued in the rain to chat to activists about both national and local issues, most of those who gathered were very supportive of NF policies and vowed to vote and support the party in the future. On the day several people joined up and we have received literally dozens of calls from others who are interested in joining the party.

Ross (17), of Bozeat Way, Westwood, Peterborough, suffered a fatal stab wound as he walked to a friend's house along a cyclepath close to Bourges Boulevard, after finishing work at the city's Solstice pub in the early hours of September 21 last year.

A Home Office spokeswoman today **refused** to comment on the case, but said: "The decision to release people on bail is entirely up to a judge, and it's not for the Home Secretary to intervene."

Lots more activities are planned for this city and others across the East

St George's Day Parade

Around two hundred National Front members and supporters held their annual St George's day parade (pictured) in Bermondsey, South East London on Saturday 20th April. (The closest Saturday to St George's day, April 23rd) The National Front are the only political party that celebrates St George's day, and have been promoting England's day for many, many years. Every year we hold events leading up to our main parade, which is in a different part of the country every year, it give's us the chance to show our pride at being English, and what a great sight, to see a sea of St George's flags flying through our streets, the public response is, as always, fantastic to our parade.
